

FOTILE

Happiness Starts in Your Kitchen

There is no single definition of happiness, but most families have a "sense of happiness" that is actually similar— with warmth, fragrance, company, sharing, and a flow of emotions. Thus, the kitchen is an integral part of creating this sense of happiness. For 26 years, FOTILE has from start to finish strived to bring "happiness" to millions of families.

We are dedicated to finding better ways of dealing with cooking fumes, making kitchens more open, and returning the kitchen to the center of the household after being relegated to the corners. Food preparation will never again be a lonely task, but rather an activity where people can see each other, work together, and share their joy.

Using increasingly specialized technology and improved quality, we help more people understand the joy of cooking and perceive the true beauty of life. From nutrition to taste, we exercise meticulous diligence so that your family is never disappointed.

We ensure that your children's memories of growing up are accompanied by familiar flavours and warmth, full of security and anticipation. We make kitchens cleaner, bring families closer, and safeguard your and your family's health.

Enjoy your happy kitchen, and leave the rest to us.

From 1996 to 2022, from China to the entire world, in 30+ countries and 17,000,000+ households.

FOTILE's mission has always been "happiness". We are determined to become the happy choice for kitchens worldwide.

- 4,200+ kitchen patents for kitchen appliance*—the industry leader in innovation.
- Sell well in 30+ countries worldwide. 10,000+ family choose FOTILE every day.
- Three major technological innovation centers around the world: Dusseldorf, Germany; Osaka, Japan; and Ningbo, China.
- Revisor of international standards for range hood products.

*Patents primarily in China

*IEC 60335-2-31: "Safety of motor for Household Use and Similar Purposes/Special Requirements for Range hoods and Other Fume Extractor Appliances"

Trust in tech for peace of mind

Timer function that unbound you from the kitchen

When knocking up a ratatouille, or waiting for your lamb tagine to be slow-cooked, you no longer need to keep your eyes locked on the pan at all times.

In-built timer function, turn off the heat at your desired moment

Long press on '+' or '-' to activate timer and adjust to desired duration

Keeping it clean has never been more straightforward

1 large drip pan

Extra in size all-in-one drip pan, collecting max amount of food residue and spills throughout your cooking

2 Flame failure protection

Detecting when your flame goes out and automatically cut off gas supply

3 Tempered Glass

Patented grease protection layer over the glass top, keeping your cleansing effort to a minimum

4 Smooth control knobs

The knobs are made with special technology and feel silky smooth. It fits the hand movement by pressing and rotating.
